EDUCATION

Amravati University | Akola, Maharashtra — Maharashtra, India
Bachelor of Science (BSC); Percentage: 79.81% — 2020 - 2022
K.M Asgar Hussain Jr. College — Maharashtra, India
Higher Secondary — 2018-2020

SKILLS SUMMARY

Backend: Python, Django, Flask, REST APIs
Frontend: HTML, CSS, JavaScript, React.js
Database: MySQL
Tools: Git, GitHub, Postman, VS Code
Other: Machine Learning (Basic), API Development

WORK EXPERIENCE

Web Developer Intern at Yasham Software Services Pvt. Ltd. | Yasham Software — June 2025 - Oct 2025

- Developed REST API endpoints and worked with Python Django backend for web application modules.
- Fixed UI issues using HTML and CSS.
- Debugged and tested web applications for performance and stability.
- Collaborated with team and followed clean coding practices.
- Built RESTful APIs using Django REST Framework to handle CRUD operations for 3+ modules.
- Built scalable backend modules and optimized database queries for better performance.

PROJECTS

KisanSat Platform | KisanSat

- Developed a backed-driven web platform using Python and Django.
- Applied REST APIs for seamless client-server communication.
- Incorporated MySQL database for efficient data management and queries.
- Built responsive UI components using HTML and CSS.
- Optimized Backend logic and fixed performance issues through debugging and testing.

Hospital Management System | Django Project

- Enhanced a Hospital Management System using Python and Django.
- Enforced modules for doctors, patients, appointments, billing, and medicines.
- Designed REST API endpoints for frontend-backend communication.
- Merged MySQL database for efficient data storage and retrieval.
- Built responsive user interface using HTML, CSS, and Bootstrap.
- Implemented authentication and role-based access control for system users.

Personal Portfolio Website | Portfolio

- Expanded a responsive personal portfolio website using React.js.
- Designed reusable UI components and interactive layouts.
- Integrated project showcases and GitHub links for work samples.
- Executed responsive design using HTML, CSS, JavaScript and React.js

CERTIFICATES

Web Development Internship Certificate | CERTIFICATE

Demonstrated the ability to build responsive React interfaces, optimize component performance, and collaborate effectively to deliver scalable frontend solutions.

React.js Course Completion Certificate Program | CERTIFICATE

Gained hands-on experience in React.js by developing interactive and component-based web applications. Built dynamic and responsive user interfaces using modern web technologies.

Introduction to Artificial Intelligence | CERTIFICATE

Acquired a foundational understanding of Artificial Intelligence concepts, including natural language processing and real-world AI applications.
